

"DRY" TERRITORY, CLAIMS GREGORY

Attorney General Declares 1842
Treaty Prohibits Sale Of
Liquor Here

That Rhinelander, as well as many other towns in northern Wisconsin and northern Michigan, will soon be in the "dry" column through the provisions of an old Indian treaty now appears to be more than a mere possibility. It is ascertained in this city from a reliable source that Attorney General Gregory of the United States has made a ruling that northern Wisconsin is in "dry" territory under a treaty with the Indians made in 1842 and not the treaty of 1855. It is upon the last passage of article II of said treaty that Mr. Gregory bases his opinion.

This passage reads as follows:

Article 2.—The Indians stipulate for the right of hunting on the ceded territory, with the other usual privilege of occupancy, until required to remove by the president of the United States and that the law of the United States shall be continued in force, in respect to their trade and intercourse with the whites until otherwise ordered by congress.

This territory was dry at that time under the laws of the United States and no liquor was allowed. It embraces a district extending all over northern Wisconsin, going as far south as Rhinelander. It takes in Mellen, yet does not include Butternut and extends east, covering a large part of northern Michigan, taking in Hurley, Ironwood and Bessemer and other towns.

Should the sale of liquor be prohibited under the treaty nothing but an act of congress, an unlikely procedure, would again make this territory "wet."

WITTENBERG FIVE LOSE FAST GAME

Rhinelanders Highs Put It Over
Visitors Friday Night By
Score Of 39 To 30

The 1916 basket ball season was opened up last Friday night when the Rhinelander highs trounced the Wittenberg five in the liveliest forty minutes of basket tossing ever seen on the "gym" floor. The visitors came lauded to the skys and were labelled as likely championship contestants. Coach Sorenson felt the importance of the game and gave his squad especially grinding work outs during the week preceding the game.

Captain McRae choose the north goal and immediately after the toss up Arnold secured a basket. On the next tossup Wittenberg held the ball for a few seconds and Frogner got a goal on a dribble. This served as a signal for Wittenberg who immediately made it a point to tie the score and went ahead on a free throw by Slipyan. McRae then looped in a pretty shot and Frogner followed by two in succession. Slipyan shot another free throw and then Cain dribbled the entire length of the floor for another count. Up until this time Wittenberg had had the ball constantly in her possession but could not get it close enough to the basket to shoot effectively, but now Rhinelander took the offense and by lightninglike passing and accuracy in throwing baskets run the score up to twenty. The visitors took a stand then and repeatedly broke up the local's scoring and incidentally scored a few points themselves. The half closed with R. H. S. leading 21-12.

At the beginning of the second half the Wittenberg five had evidently just had a very "confidential" talk with their coach, for the speed that they displayed took the green and whites completely off their feet. They struggled feebly for a time during which the visitors had tied the score. Then R. H. S. realized it was about time to start something and immediately made plans to that effect.

Frogner broke the tie with a basket and Cain dribbled down the floor four times in succession each time scoring. But Wittenberg "got wise" to that play and blocked any further attempts from Cain. They tried one of the same tricks and it worked as Cain's had thereby making the score 33-30. Just before the final whistle Frogner secured a free throw which left the score 39-30 with R. H. S. on the right side.

This is the first time Rhinelander has ever met Wittenberg and if the first match is a fair proof we sincerely hope that relations with them may continue. Although they had the large crowd which packed the gym fearing defeat, a cleaner or more gentlemanly bunch of players has never visited this city. They were accompanied by several rooters and a mass meeting in the assembly room in the afternoon brought a familiar feeling between the visitors and students. This victory over Wittenberg greatly strengthens Rhinelander's chances for the state tournament and while the season is yet young everything seems to indicate a championship team for R. H. S. this season.

Next Saturday night the locals meet the Phillips Highs and a good lively game is assured as this team is up to this time undefeated. Coach Sorenson is driving his men hard and expects to spoil Phillips' perfect record.

STATE BANKERS COMING ON ANOTHER EXCURSION

Another excursion through the northern Wisconsin counties is being planned by the State Bankers' association. This excursion will probably be conducted early in the coming summer and will be similar to the one which visited Rhinelander in June 1914. That this city will be on the route of the proposed trip there is no doubt. It will be remembered that when the bankers were here in 1914 they were entertained at breakfast at E. S. Shepard's home. "The Pines" and also partook of a potato bake at Starks. They were loud in their praises of the hospitality extended to them by Rhinelander people.

The W. A. A. bulletin contains the following in commenting on the excursion:

Secretary Bartlett of the State Bankers' Ass'n. proposes another excursion of the bankers of Wisconsin through the upper counties. We had such an excursion in 1914, and Mr. Bartlett is in good position to know the results.

Before the 1914 excursion few of the bankers of the older counties had any comprehensive knowledge of the value of the upper counties from an agricultural standpoint. They were inclined to invest the funds which they controlled in securities of other states. That excursion changed the situation—as far as the bankers who went upon it were concerned.

But while a hundred bankers went, there are something like seven hundred in the state, and it is at least a portion of the other six hundred that Mr. Bartlett wants to have know something of the upper country. Before the 1914 excursion very little money was invested by southern Wisconsin bankers in farm securities in the upper counties. Since then one loaning concern composed of bankers has placed a million dollars on Wisconsin farms, largely, if not mainly, in the upper counties.

Let's have another excursion, a big one, and let others spend their summer vacations in the upper counties—up there where the air is fresh, where malaria is a stranger and where hay fever vanishes in a day. Up there where the restful lakes are—lakes beautiful to look upon, where fishing is a real enjoyment. In connection with the vacation, make trips into the farming country—"Know Wisconsin First." It is good to have an intimate knowledge of one's own state.

Wisconsin has solved the farm loan question—solved it by showing the custodians of loanable funds that there is nowhere quite as good security as is to be found at home.

ARREST YOUTHS ON FORGERY CHARGE NAME COMMITTEE ON RATE PROTEST

Howard Hopkins, and Vernon
Teal, Antigo, Are Taken In-
to Custody Here

Shippers Meet Here Saturday—
Hearing At Madison Early
In February

As they alighted from the north bound Northwestern passenger train in this city at 11:30 Friday night, Vernon Teal and Howard Hopkins, Antigo youths, were arrested by Officer John O'Brien on charges from the Antigo officers stating that the boys were wanted there on a forgery charge. Following his arrest Teal was identified by the officers here as the young man who some time ago passed worthless checks on business men in Rhinelander, Pelican Lake and Menomonie. The last two offenses are alleged to have been committed in 1912 while the local offense is of more recent date, Sam Johnson, proprietor of the City Hotel, having been the victim.

Young Hopkins was taken to Antigo by Sheriff Thomas Ford of Langlade county. He pleaded guilty to a series of forgeries and was sentenced in municipal court to two years in the Green Bay reformatory.

Teal was detained by the authorities here and in municipal court pleaded not guilty to a charge of obtaining money under false pretenses. His case was adjourned until Friday. He has hopes that relatives in Antigo will come to his assistance.

Although young in years both boys are alleged to be experienced in the ways of crime. According to the statement of Hopkins, made to the Antigo officers, they have operated chiefly in passing worthless checks. Teal confessed that he and Hopkins obtained money in this manner in many cities throughout the state. Their method of operating was both unique and clever as the following from the Antigo Journal would signify:

Hopkins informed the officers that all the checks were written by Teal. One method used by the two boys in cashing the checks, it is alleged, was to send them ahead by mail to the next city where they intended to operate. Teal had in his possession some of his father's stationery, would write a letter on the same, and enclose the check. The letter would then be addressed to some hotel in the next city where they intended to go. Upon arriving Teal would at once go to the hotel and register. He would then call for his mail. Upon receiving the letter he would inform the clerk that it was a letter from his father, telling to come home at once. The enclosed check was to pay his expenses. Teal would then ask the clerk if he would oblige him by cashing the check so he could get home as soon as possible and the hotel clerk usually did so willingly, never suspecting the deception. The boys would then leave town, but would first send another letter to the next place they intended to stop.

Teal and Hopkins are wanted in about six different counties, it is said for forging checks. Hopkins told the officials that they cashed on the average of twenty dollars a day in checks, and lived high while they were gone. When asked by the authorities if he liked the game, Hopkins replied that he did not because every stranger that he met he thought was an officer, or detective.

About a week ago Teal sent a letter to one of his friends requesting him to get him two blank checks, books on the First National Bank and two on the Langlade National Bank, as their supply of checks was running low. He also told him that the going was good as they had forgotten him in places where he had been before. He also stated that they needed another partner and if he would come he would give him a new fur overcoat. The letter was turned over to the authorities. Hopkins also told the officers that they wandered back into this vicinity because their supply of checks was about gone and they thought they would be able to get a hold of some more.

At an informal meeting Saturday in the office of the Rhinelander Advancement Association for the discussion of the Tittemore case and the Advanced Rate case for which hearing was set by the Railroad Commission of Wisconsin for Jan. 12th, 1916, there were present:

F. M. Ducker, Traffic Manager, N. H. & W. Mfrs. Ass'n.
E. Moerke, representing Oshkosh Fuel Co., and other fuel-wood interests.
E. O. Brown, representing Brown Bros. Lumber Co. and a member of the Central Wisconsin Traffic Bureau.
R. B. Goodman, representing Goodman Lbr. Co. and President, Nor. H. & W. Mfrs. Ass'n.
A. E. Solie, Traffic Manager, Central Wis. Traffic Bureau, and representing Rotary Birch and Ringle Birch Co.
H. G. Tank, Secretary, American Society of Equity, representing live stock and tobacco interests.
E. O. Harlow, Secretary, Rhinelander Advancement Ass'n.

It was the sense of this meeting that there is nothing in the Tittemore case that is prejudicial to the interests in the advanced rate case, for the reason that the questions involved in the two cases are entirely separate and distinct; and that there is no conflict of interest between the two cases, the only conflict being in the Tittemore case as between localities with respect to the class rates.

The secretary of the meeting talked with the office of the Railroad Commission over a telephone and learned that the Commission had postponed the hearings set for the 12th inst. until the first week in February, at which time the complaints in the Tittemore case would put in their case and at which time the railroad will present their side of the Advanced Rate case and that the protestants in both cases would be given a reasonable time in which to prepare their evidence for rebuttal.

On motion of Mr. Moerke, seconded by Mr. Ducker, the following resolution was unanimously adopted:

Whereas, A. E. Solie, is authorized to present the case of the protestants in the Advanced Rate case on behalf of the Central Wisconsin Traffic Bureau, Rotary Birch Club and Ringle Birch Co., and

Whereas, Mr. H. G. Tank is authorized to represent the protestants on behalf of Live Stock and Tobacco interests of the American Society of Equity, and

Whereas, Mr. F. M. Ducker is authorized to represent the protestants on behalf of the Northern Hemlock & Hardwood Mfrs. Ass'n and on behalf of the fuel-wood interests.

Be it resolved, as the sense of this meeting that the three men above named invite the traffic representatives of all other protestant interests to join with them in a conference to be held at such early date and at such place as may be mutually convenient to all concerned, for the purpose of mutual assistance in the preparation of data, evidence and a plan of procedure, so that these interests may unite on a common ground of defense and that there may be no unnecessary duplication.

It is further resolved that this committee shall not incur any joint expense to be prorated among the interests concerned, but that each representative will defray the expense of his portion of the work.

On motion duly seconded and carried the secretary of the meeting was instructed to send a copy of the minutes of this meeting to the various parties interested.

R. B. GOODMAN,
Chairman.
A. E. SOLIE,
Secretary.

BARNEY BALKS ON RIDING ELEVATORS

Barney Moran, state oil inspector, likes to visit his friends and Mr. Moran's friends are always glad to see him, but when he comes to Milwaukee he is forced to put into practice a system all his own.

The fact is, Mr. Moran can't ride in an elevator—it makes him sort of seasick. It's all right to ride two or three stories, but when it comes to shooting to the top of one of Milwaukee's skyscrapers he never takes a chance. He tried it on several occasions, but it wouldn't work, so he has decided that riding in elevators is one of the things he can't do.

So when he reaches one of Milwaukee's skyscrapers housing a friend he desires to see, Mr. Moran remains in the lobby, sends word to his friend that he would like to see him, and said friend drops his work and comes downstairs to shake hands with Mr. Moran.

Mr. Moran was in Milwaukee on Saturday. Eyeing a busy elevator in a downtown building, he said: "I'd like to ride in it, but I can't. It would be just as safe for me to rent a Zeppelin and sail over the war fields of Europe."—Milwaukee Sentinel.

ONEIDA GRAINS AT STATE SHOW

The County Representative is preparing a number of grain samples for exhibition at the annual state grain show which will be held in Madison, February 11 and 12. These samples of grain have all been grown by the farmers of the county during the past season and some especially fine exhibits have been collected. These grains will be in competition with those of Krueger, West, Raessler and others who have won first prizes at the best grain shows ever held. If our grains can win in this competition we will have the satisfaction of knowing that they are the best that can be grown. We have especially fine samples of Swedish Select oats from Chris. Michaelson at Hazelhurst, Brown Bros. at Robbins, and W. Olson near Rhinelander. We have pedigree No. 1 oats from P. S. Campbell & Sons, Three Lakes, and a collection of grains from Herman Schoeneck, Enterprise and Art Blumenstein, Woodruff. There will be about twenty samples in all. We expect to win some prizes but whether we win or not we will let the rest of the state know that we have something else in Oneida county besides potatoes which is worth exhibiting.

W. R. Johnson of Wausau transacted business here during the week.

TO FORM LEAGUE OF FOUR CITIES

Plan Base Ball Organization Of
Eagle River, Antigo, Grandon
And This City

From The Vilas County News It is learned that a movement is underway to organize a base ball league comprising Antigo, Eagle River, Grandon & Rhinelander. Eagle River fans have entered into the movement with enthusiasm and it is believed that fans of the other three cities will display the same spirit.

The Vilas County News says: Manager Frankel this week received a letter stating the desire of the other towns to get together on the subject. Representatives from the four teams will meet at Antigo sometime this month to formulate plans for the four team league.

The league idea among small town baseball teams is increasing in popularity. It has many advantages and does away with a lot of the uncertainties of amateur baseball. It creates enthusiasm that sustains the interest.

Attend the meeting Thursday evening and help with your opinion on that Eagle River might have a live baseball team this summer.

POTATO MEETING EAU CLAIRE 1916

In a letter from J. G. Milward, secretary of the Wisconsin Potato Growers' Association, to W. D. Juday, county agricultural representative, it is announced that the next state convention of the association will be held in Eau Claire. Mr. Milward's letter follows:

Mr. W. D. Juday,
Rhinelander, Wisconsin.
Dear Mr. Juday:—

On Saturday January 8, the executive committee met at Eau Claire and decided upon Eau Claire as the location for the next State Convention of the Wisconsin Potato Growers' Association.

A conference of potato interests of northwestern Wisconsin will be held in the near future to begin arrangements for this convention. Please circulate this notice in your county.

Very truly yours,
J. G. MILWARD,
Secretary.

MOTHERS' PENSION LAW COMPULSORY

Counties must operate under the mothers' pension law even though no specific appropriation was made for carrying the law into effect, according to the opinion of Attorney General W. C. Owen to the state board of control. The board called the attention of the attorney general's office to the fact that a number of counties failed to make appropriations for this matter at their annual meeting.

"If the money needed to furnish this relief is not provided in advance the county simply goes into debt therefore to those who furnish such relief," says the opinion. "As already remarked, if no funds are on hand the treasurer cannot pay, but that fact in no way arrests the administration of the law or prevents the issue of the proper certificates. The officers who are commanded to furnish such certificates are not obliged to ask if funds are available or if taxes have been voted by the county board. They may not refuse a certificate even if all these things are wanting. If the certificates are not paid when presented, the holder has a legal claim against the county which can be refunded."

In his opinion Mr. Owen says that the compulsory feature of the law requiring the counties to make adequate appropriations for this subject were not to frustrate or thwart the operation of the law, but rather to promote its operation and administration.

"Any other construction," says Attorney General Owen, "would render the operation of the law not only tardy, fitful, uncertain and sporadic, but would place a means within the reach of the county board to defeat the operation of the law entirely, an assumption of legislative absurdity which cannot be indulged."

Mr. Owen declares that counties which have failed to make proper appropriations may make them at an adjourned meeting. He says where this has occurred it must have been an oversight or lack of knowledge of the requirements of the law.

WOUNDED IN BATTLE

Dr. Aaron Lindgren, who is a member of the Red Cross corps with the German army, was recently wounded in the shoulder by a stray shell during a slight engagement with the French. The injury put Aaron out of commission and he was granted a six month's leave of absence. He is now at his home in Stockholm, Sweden.

WINCHESTER RESIDENT DEAD

The remains of Herman Windle, whose death occurred in Winchester after an illness with liver trouble, were brought to this city Friday and interred in Forest Home cemetery. The funeral was held from the Hildebrand undertaking rooms.

Mr. Windle was 31 years of age. He is survived by his widow who is the daughter of Charles Naylor, deceased, a well known early day resident of Rhinelander. A number of Mr. Windle's Winchester friends attended the funeral here.

BODY SENT TO PENNSYLVANIA

Arlington Groesbeck, age 42, died Sunday evening in the Oneida county poor house. Although Groesbeck died a pauper it was learned that relatives in well to do circumstances in Pennsylvania and upon being notified of his death they wired that the remains be shipped there for burial.

WILL APPOINT MILITIA OFFICERS

There will be no more election of officers in the Wisconsin National guard. The adjutant general has issued orders that in the future candidates for second lieutenant must be recommended by the company commander.

The same order announces a radical change in the examination. The physical examination will be more rigid, while the mental test is to be written instead of oral. In the past the oral examination has been before a board of three officers appointed by the colonel commanding the regiment. In the future it will be written before some officer appointed by the adjutant general. The answers will be gone over by a board of three officers at Madison, one of whom is to be an army officer. Failure to get a mark of 75 per cent. disqualifies the candidate.

NEW HOME FOR POSTOFFICE

A Washington dispatch bears the news that the postoffice department has accepted the proposal of O. A. Hilgerman to lease new quarters for the postoffice in this city. In the Hilgerman building now on South Brown street, the fact that new quarters have been secured on that new street has been secured gives rise to the opinion that the government will be in no hurry in erecting the proposed new postoffice building just as soon as it is completed in this city.

HOW TO GET THIS \$225 ALUMINUM GRIDDLE AT A SAVING OF \$140

EVENTS OF WEEK IN NEARBY TOWNS

Ashland—
W. L. Haskins, Parishville, an Indiana, is now instructor of aviation in a school at Los Angeles. He attended the University of Wisconsin and married a niece of Ella Wheeler Wilcox. He is not only an expert aviator, but an inventor of aeroplane attachments, the principal result of his study being a telephonic finder, for observations from the air.

Eagle River—
Joseph Hrabrich, employed at the Sanborn Company's offices, in charge of the Croation department, has received word of the death of his 19-year-old brother, who was fighting with the Austrian forces on the Italian front at Gorz. The young man had been a student at the Zara university but had been drafted into military service at the outbreak of hostilities. He was with the Austrian forces on the Russian front at Przemyśl in the early part of the war and later when Italy entered the conflict he was transferred to the Italian front, where he met his death. The Hrabrich home is on the Island of Veglia off the coast of Croatia.

Washburn—
Through private sources the information has leaked out that President Clarke, of the Chicago, St. Paul, and Minneapolis & Omaha railway, has

practically promised that the city of Washburn is to have a new and commodious passenger station before another year rolls around and one that will be a great credit to the city and to the Omaha and in keeping with the large volume of business now being done in this city on this line. Washburn has needed a new depot for many years and it is good news that wishes along this are about to be realized.

Ladysmith—
A. H. Skubic, real estate agent for the John S. Owen Lumber Co.'s lands near Sheldon, who is at present on an extensive trip through the East, reports that he has plans well under way to organize one of the biggest stock companies in the North Central part of this state. This company whose capital stock will be \$75,000, expects to buy the big "Pea Farm" containing 1480 acres of land. Raising beef cattle and dairy stock will be their prime business.

Iron River, Wis.—
Berft Augusta, former Iron River boy who has put in sixteen months of hard fighting in the Belgium trenches, got back to the front the first of this month after a brief visit to England, wrote a letter to a friend in this city which contained this reference to Ford: "We may have Ford over here telling us to stop fighting because it's bad for his business. If he even gets as far as England he will get a pretty rough time. When I was in London a lot of soldiers went to a large hall and kicked a peace at any price meeting right off the stage. So you can see what might become of Ford."

Hayward—
The outlook is that Sawyer county will see the biggest timber cut in its history. The total is expected to reach 125,000,000 feet. The Hekkedal company of Couderay will log 7,000,000 feet on the Chippewa Indian reservation, the Arpen company of Grand Rapids 5,000,000 feet, the Frank Carter Tozier 6,000,000 near Barker Lake, the North Wisconsin company 6,000,000, the Rice Lake company 20,000,000, the Hammond-Chandler company on the east fork of the Chippewa 3,000,000, the Kaiser company of Eau Claire 20,000,000, Dells company, Eau Claire, 15,000,000, and the Chanapee company of Birchwood about 4,000,000 feet.

Crandon—
John Seymour, chief of the Rice Lake band of Chippewa Indians, is dead. He was a victim of tuberculosis, which disease has caused numerous deaths among the Indians of this vicinity. At a recent meeting of the city council it was voted to abolish the board of fire and police commissioners. Senator La Follette will speak here about January 18.

Ironwood—
In a fire which destroyed the home of Gus Meyer in Bessemer, John Boman, a roomer, was burned to death. W. F. Kelley, Ironwood's theater magnate, has secured a long lease of the Empress theater here which was built and has been operated for several years by O'Donnell Bros. There are prospects that Ironwood and other northern Michigan cities will go "dry" under the terms of an Indian treaty made in 1854.

They Know Too Much
The brewers should be reminded of the wise saying of Josh Billings, "It is better not to know so much than to know so many things that ain't so." They have been quoting in display type Dr. Harvey W. Wiley as an advocate of their products, making him say, "Beer is a veritable food product. It can truly be termed liquid food."

Unfortunately for the brewers, Dr. Wiley does not seem to recognize the statement as having been made by him, and, in fact, repudiates it in the last issue of Good Housekeeping, and makes the following emphatic statement of his opinion as a food expert: "Furthermore, in the last few years I have been irresistibly driven to the conclusion that the best thing for the mental and physical health of our people would be the complete abolition of commerce in alcoholic beverages. This conviction makes it doubly irksome for me to see my name continually used to promote the sale of beer as a food."

Catholics Working For Total Abstinence
At the forty-fifth national convention of the Catholic Total Abstinence Union of America which met in Pittsburgh the Very Rev. P. J. O'Callaghan, national president of the organization, in an address quoted the words of Pope Pius X to a delegation of members of the International Federation a year and a half ago. "It is your duty, as Catholics, to be in the very van of the anti-alcohol movement." "In this movement against alcohol drinking the latest blessing of the church of God is upon those who are in the very van of it," declared the president.

"What can we do to save the race from the curse of alcoholism? What share are we Catholics going to have in the eradicating of the monster evil of these days? Catholics should be foremost in this altruistic crusade for the physical, moral and religious salvation of the race. The individualism which sees in the temperance question merely an attack on personal liberty shows small indication of a Christian spirit. A Christian spirit feels that if one member is sick the whole body is sick. How many of us do really suffer because of the thousands that are drunkards? How many of us are asking what are the causes of drunkenness? who cares? Do you? Are you concerned about the dangers which will beset the path of the rising generation? Are you anxious to save every man that can be saved, and especially anxious to preserve those that are yet uncontaminated in order that the Kingdom of God may be peopled for time and for eternity? When we begin to do our best, we shall make not only Catholics in America sober, but we shall make the nation sober."

Alcohol and Efficiency (From the Outlook)
One of the significant and unexpected results of the new campaign for scientific efficiency in industry is the movement against alcohol.

Under the old rule-of-thumb management this situation would never have come about. The effect of alcohol on efficiency would never have been known exactly. But when the new and supposedly infallible methods of efficiency at times failed, the resulting investigation into the cause showed that it was due to individual unfitness caused by the use of alcohol. And when it was shown that even a little alcohol—as little as might be in two glasses of beer—was the cause, the result was inevitable.

In the scientific plan of efficiency it is necessary, to use a military phrase, to hit the bull's eye every time. A bullet in the first ring won't do. In such circumstances a workman need not be anywhere near intoxicated to be inefficient. A glass or 2 of beer makes the difference between a bull's eye and a shot in the first circle.

The new plan of efficiency is so profitable to both employer and employee that whatever stands in its way must go. Economic necessity is making converts to Prohibition.

THE HABIT OF TAKING COLD
With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not ice cold, but a temperature of about 90 degrees F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

FLASHES FROM THE HEADLIGHT

Special club service is the latest feature to be introduced by the Chicago & Northwestern Railway Co. for the convenience of patrons on their dining cars.

A wide choice of complete club service menus are provided for breakfast, luncheon and dinner, each menu including a liberal number of attractive and appetizing specialties which are offered at popular prices.

Under this new arrangement patrons will be quickly served with a lesser portion than that which would be furnished to them from the regular complete a la carte menu.

Attractively printed menus have been especially provided for this service which became effective on all dining cars of the Chicago & Northwestern Ry. Monday, Jan. 10th.

It is anticipated that this new service will meet with popular favor from the traveling public and its introduction is simply following out the general policy of the Chicago & Northwestern Ry. Co. to provide its patrons with "The Best of Everything."

The Crandon Republican says that Frank McGinnis, the expressman who handled the routes from Pelican to Crandon and from Pelican to Parish, has been taken off these runs and the brakemen on the trains will hereafter take care of the express.

The express company claim business in their line is poor since the parcel post came into existence and that it does not pay to continue a messenger on these trains. Mr. McGinnis intends to go to farming near Pelican.

The Soo line monogram, in large white letters, will hereafter be painted on the tanks of all the company's locomotives as they go through the shops. This is a new decree effective all over the Soo system, and a number of the redecorated iron horses have already appeared on this division. A less noticeable change is that in re-painting engines the numbers are affixed to the space below the cab windows in large figures, in addition to the numbers on the steam domes. The lettering, M, St. P. & S. Ste. M., remains, as formerly, in the narrow panel below the cab windows—Stevens Point Gazette.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost.

Put directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

At the next meeting of Rhinelander Aerie, 359 F. O. Eagles, a class of over twenty-five candidates will be admitted to membership. This is only one of several large classes to be taken into the aerie within the last two months. 359 is growing at an astounding rate and already it has a place among the largest aeries in Wisconsin. The nominal initiation fee of five dollars granted through a special dispensation of the Grand Aerie to 359 has been the main factor in recently increasing its membership.

After the meeting of the aerie Thursday night there followed a pleasant social session at which a rabbit stew was served.

JANUARY 13, 1916

Don't forget Carnation Day, January 29.
It will soon be time to talk spring politics.

Had it yet?—We refer to the gripe.

About time to begin saving up money for your next Christmas shopping.

There is every indication that this city will have a new hotel before the close of 1916.

Don't grumble about the cold weather—in less than six months you'll be complaining about the heat.

If you think conditions in Rhinelander are not prosperous just go out and try to hire men for any kind of labor. They are as scarce as the proverbial hen's teeth.

His dying request was to be buried seated in his Ford car. "But why do you make such a request," asked his wife. "Because," said the dying man, "it has pulled me out of many a bad hole and it may get me out of the one at the cemetery."

In his bitter attack on Police Chief Janssen before the Merchants and Manufacturers' association Tuesday night Mayor Bading of Milwaukee showed mighty poor judgment as a public official. Such a violent outburst can do nothing but make friends for Janssen.

Literature advertising western Canada lands has been freely circulated in this city of late. Home seekers will do well to pay no heed to this literature as it is very misleading, according to the statements of local people who have been through the country described. And what is more, western Canada is a fine place to stay away from just at this particular time as conditions are far from good there owing to the war. The man who is looking for a permanent home with bright prospects for the future can not do better than to locate in Oneida County.

THE COUNTY AGENT

It is only a few years since the county agent or county representative system was started in Wisconsin. Now there are more than a dozen counties with them, and several more will soon be added. No county that has had one has had reason to discontinue the office. It is reasonable to suppose that in any office, and especially in one so difficult to fill, there will occasionally be a failure—and it would not be surprising if occasionally a good man's work should go unappreciated. It is surprising that the work of the county representatives should so universally be appreciated.

It has been the peculiar experience of the counties employing county representatives that the county supervisors of the cities and villages have been the leaders in securing them, while supervisors from the country districts often have stubbornly opposed their employment to the last moment. After a short time the country people would be the last to consent to vacating the office. This speaks well for the excellence of the work of the county representatives and for the importance of the work.—W. A. A. Bulletin.

GOVERNOR "PEEVED"

Governor Philipp in a speech at Janesville seemed considerably peeved over the proposition that Senator LaFollette has the audacity to speak in the state of Wisconsin, concerning state affairs, and as governor of the state directs Senator LaFollette to go back to Washington to tend to the national questions that are before congress at the present time. We can see Senator LaFollette packing his grip and starting for Washington immediately. He is made of that kind of stuff. The attempted answer by the governor in his speeches throughout the state shows him purely on the defensive. Some of the "free press" editors have complained that Senator LaFollette while he is drawing his salary, he should be putting his time in at Washington. This makes one smile as it is a known fact at Washington that Senator LaFollette is the hardest working senator on matters in congress that there is at Washington, and is known as "Fighting Bob" on legislative matters.

When you simmer it right down to the bare facts it gets back to the old proposition, that "the truth hurts", and it is quite evident from the senator's speech at Merrill the other night that he is placing the truth in the limelight and it is causing confusion in the enemy's camp.—Merrill Herald.

MILL MAN HURT

Frank Tushinski, age 25, an employee of the C. C. Collins Lbr. Co., was caught in a shaft while at work in the mill early Wednesday morning, sustaining injuries which will confine him to the hospital for several weeks. Tushinski was alone when the accident happened. That he was not killed is difficult to comprehend. He was painfully bruised and torn internally. His clothing was torn to shreds.

William B. Secard, who has been ill with rheumatism at his home on the north side for the last six months, is again in good health and will shortly resume his position on the road as drug salesman.

Often Happens That There Is More Feed Wasted Than Eaten by Animals—Device for Lambs.

To get the best results from feed stock should have feed-saving and convenient racks and boxes.

Sometimes there is more feed wasted than eaten by the stock, especially when the corn is thrown out in mud eight or ten inches deep for the hogs to muss over, or when wheat and clover hay are piled out by a post or against the side of the shed to be trampled under foot by the cattle and horses.

A good size is as follows: For the body of feed rack make a box 4 by 10 feet, with sides 6 inches high, the top

Handy Removable Feed Rack.

rails 6 by 12 feet; at each corner the slats should be of 2 by 4-inch stuff, the other slats 1 by 3-inch.

The slats should be 3/4 or 4 feet long and wide enough apart for the lambs to reach through and eat meal or grain from the box. Any material at hand may be used to make the rack. Permanent feed racks may be made on this principle out of heavy material in which to feed fodder, straw and hay to horses and cattle.

EARLY ATTENTION TO CALVES

Where There Is Abundance of Skim Milk It Is Profitable to Feed Heifers Until Year Old.

The length of time that a calf should be fed on skim milk depends upon the amount of milk available. Some feeders wean their calves at four months, but it is better practice to feed until they are six months. If there is plenty of skim milk, it is profitable to feed heifers until they are eight months or a year old. This insures better growth and development.

The calf will begin to eat grain at the time it is changed from whole milk to skim milk. The best way to get it started is by placing a little grain in its mouth after it has consumed the milk. It will like the taste, and will soon eat without assistance if the grain is placed within reach.

A great many feeders practice mixing the grain with the milk. This is a serious mistake, especially in case of corn or some other starchy food. The calf simply gulps it down, and does not masticate it. Indigestion often follows.

When the calf begins to eat grain readily, only such amount should be given as will be cleaned up at each meal. The calf's appetite is the best guide, but usually he will not eat over a half pound of grain a day for the first two months. From this time until six months old, a pound of grain a day will be sufficient.

FRESHNESS DESIRED IN EGGS

Those Reaching Consumer Within 24 Hours After Being Laid Are in Demand.

Freshness is something that every one desires in an egg. Eggs that reach the consumer within 24 hours, or soon thereafter, after being laid and are sterile and sanitary, represent the acme of achievement by the hen.

The general public has to depend on the honesty of dealers to insure getting the best eggs unless one has personal knowledge of some farm or poultry plant where eggs are a specialty, and fortunately the majority of dealers are reliable.

TO SERVE EGGPLANT

VEGETABLE VALUABLE IN GIVING VARIETY TO MENU.

Care Bestowed on Its Preparation Will Be Well Repaid by the Tastiness Which Is Its Characteristic When Well Seasoned.

The eggplant is plentiful and at its best just now. Well seasoned and carefully cooked, it may give in many disguises many varieties to the menu. Many of the recipes given below are from southern France, where the eggplant is the favorite vegetable. When choosing an eggplant select one of medium size and firm, otherwise it may be too ripe and full of grains inside. However great the virtues of the eggplant may be, remember that by itself it is quite tasteless; so season and season well.

Eggplant Salad.—Put in the oven one eggplant, five green peppers and two tomatoes. You will bake the tomatoes first, then the peppers, and the eggplant last. Gradually skin, grain and drain off the above vegetables. Use a silver knife. Arrange in a dish. On a moderate fire in a half cupful of olive oil fry a small onion cut into small pieces and half a cupful of olives stoned and cut into pieces. When the onion is slightly brown add everything to the dish. Salt and pepper to taste and add two table-spoonfuls of good wine vinegar. To be eaten cold.

Broiled Eggplant.—Cut the eggplant in two lengthwise. Put in a marinade composed of two tablespoonfuls of olive oil, one teaspoonful salt, one-half teaspoonful of pepper and some parsley. Leave it to marinate for an hour or more. Broil and serve with the marinade.

Fried and Au Gratin.—When you cut an eggplant into pieces for frying or other purposes be sure to sprinkle it with salt and let it stand under a weight for about two hours. Drain off the water, dry well and then fry. For the gratin cover with either tomato or white sauce and bake for from 15 to 20 minutes.

For Fritters.—Soak the pieces two hours in milk; dry and fry, using the following recipe for fritter batter: One cupful flour, two teaspoonfuls of baking powder, one-fourth teaspoonful salt, one-fourth cupful milk, two eggs, one tablespoonful lemon juice. Sift the dry ingredients; add the well beaten eggs, lemon juice and milk. Beat well. Prepare a few hours ahead.

Stuffed Eggplant.—Cut the eggplant lengthwise. Make incisions with a knife, salt and let stand for an hour. Drain off the water; cut the pulp and fry it for a few minutes in oil. Pound well; add four tablespoonfuls of pounded ham, a teaspoonful of parsley, salt and pepper. Sprinkle with crumbs, to which may be added some parmesan. Put over it a little oil and bake in an oiled pan for an hour. Of course you may use butter instead of oil, but the olive oil blends itself better with the eggplant. If instead of ham you use hashed mutton, cooked rice and a bit of garlic and pimento you may call this dish "eggplant a la Turque."

Eggplant and Tomatoes.—Peel the eggplants; cut lengthwise in pieces one-half inch thick. Salt, let stand and dry. Put in a pan; cover with a well seasoned tomato sauce. Cover the pan and cook on a moderate fire for an hour.

How to Split a Short Cake.

Almost every housewife knows how troublesome it is to split either short cake or a loaf cake without having it heavy and soggy, and especially is this so when the cake is hot. I manage in this way: As soon as the cake is taken from the oven I make a slight incision with sharp knife where I want the cake divided. In this I insert a strong thread and by holding one end in each hand I draw the thread gently backward and forward until I have the cake divided to my satisfaction.

Leg of Lamb.

Get a leg of lamb, put plate in bottom of kettle, place leg of lamb on top, then dressing pinned up in cloth. Dip cloth in hot water, flour and place the dressing in the middle of cloth, tie or pin up tight. Place on top of lamb, boil until done, then press lamb and dressing together and slice when cold. Take the water lamb was boiled in, add one carrot, two onions and potatoes. Place one-fourth cupful of rice on stove to cook, add to stew just before serving.

Jellied Veal.

Materials.—Cold roast of veal, two cupfuls; one tablespoonful gelatin, seasoning.

Utensils.—Breadpan, saucepan, meat grinder.

Directions.—Stew pieces of roast in a little water until tender. Grind or chop meat and season highly. Dissolve gelatin in one cupful of water in which meat was cooked; mix with meat and mold in breadpan. Chill and serve in slices.

Creamed Chipped Beef.

Put one tablespoonful butter in the frying pan. When melted put in one-fourth pound chipped beef and fry until well browned, stirring often to keep from scorching. Add one pint milk. When it begins to boil thicken with one rounding tablespoonful flour dissolved in a little water. This makes the gravy a little brown. Try it and see if the flavor isn't better for frying the beef.

HAULING STOCK TO MARKET

It Will Pay Small Producer to Have Loading Chute for Loading and Unloading From Wagon.

The farmer, especially the small producer of stock, will often find it convenient to load and unload stock from the wagon. A few hogs are sold to be delivered at the nearest shipping point, and, of course, the seller is expected to deliver the stock to the shipping yards or scale yards. This demands the loading and unloading from the farm wagon. It will pay to have a good, substantial loading chute for the farm, with hurdle fence to hold stock while being loaded and unloaded in the barnyard or feed lot.

This is a simple contrivance and not expensive, but should be strong and durable so as to last for many years. It will pay for itself every year. There are cheap, insecure, frail chutes made and there are substantial ones, which are the cheapest in the end.

This is only one of the conveniences that every farm should be supplied with, and not depend on borrowing from a neighbor. The wagon frame for hauling hogs or cattle is also a great convenience and should be on every farm, and for each wagon on the farm. These should be stored away in the wagon shed when not in use.

There are some very convenient frames for hauling stock that can be readily adjusted to any wagon. The convenience of having such a device that is secure, light and easily adjusted is the admonition at this time. Farm conveniences should be added as rapidly as circumstances will permit, and when secured carefully preserved as to demand no more expense.

Chicks Intended for Fattening.

After the chicks have developed sufficiently to weigh a pound or more they should be kept on a growing ration with plenty of exercise. Those intended for fattening should be separated from the ones selected for breeding at an early age. Two weeks before marketing they should be confined in small quarters and fattened.

Development of Draft Colts.

Develop draft foals from birth to maturity with plenty of good feed, lots of exercise and by proper care. Good breeding gives possibilities which good feeding and care develop.

CITY MAY GET LABORATORY

Dr. C. A. Harper, secretary of the state board of health, was here today investigating the claims of this city for the location of the new state laboratory to be placed in northern Wisconsin. At the office of the Rhinelander Advancement association Dr. Harper met with the board of directors of the association and Rhinelander physicians and with them discussed fully the matter. He stated that the state board of health will decide definitely upon the site for the laboratory at a meeting to be held in Madison, January 20.

At the last session of the legisla-

ture the state board of health was authorized to establish a laboratory in the northern part of the state.

Five cities, Eau Claire, Chippewa Falls, Superior, Ashland and Rhinelander, are contenders for the institution. Dr. C. A. Richards of this city at a recent hearing conducted by the board in Madison presented Rhinelander's contentions for the laboratory and advanced many strong reasons as to why this city is the most logical site. Dr. Harper was requested by the board to personally investigate the claims of the five cities in the contest.

Alex McRae was numbered among the sick this week.

C. H. Donaldson of the Mason-Donaldson Lumber company, went to Chicago Saturday.

Invitations have been issued by Mesdames Colburn and Stevens for a five thirty o'clock tea next Thursday afternoon in honor of Mrs. E. B. Flagg.

Henry Schroeder was summoned to his home in Bondel Tuesday by a message announcing the death of his father.

LOST—A Conklin self-filling fountain pen. Finder please return to Miss Verna Durkee, New North office.

County Superintendent F. A. Lowell has since Monday been ill at his home on Grant street, but at noon today was feeling much improved.

The young ladies employed in the finishing room at the paper mill gave a shower last evening at the Hintz residence in the Sixth ward for Miss Ella Lawrence, one of their number who will be married next week to George Hintz.

Women who are really looking for good bargains, will do justice to themselves by attending Wiesman's big sale. Each and every article in the entire store is on sale at greatly reduced prices.

Mrs. Charles A. Lyman left Saturday for Madison where her father, Dr. Sheldon, one of the old and prominent residents of that city, is seriously ill. The Lyman children, who are ill with the measles at their home on Grant street, are under the care of a nurse.

CONGREGATIONAL OFFICERS

At the annual meeting of the Congregational church, Wednesday evening, the following officers were elected for the ensuing year:

Mr. Brown re-elected Chairman.

Mr. Crosby, Treasurer.

Mr. C. W. Brelle, Clerk.

Mr. Crosby, Mr. Eibel and Mr. Brelle, Trustees.

Mrs. Clorn and Mrs. Hamilton as deaconesses.

Mr. Crosby and Mr. Brown, deacons.

D. R. Wellman of Antigo was in the city Saturday.

Dr. C. A. Harper, secretary of the state board of health, was in the city today.

LOCALS DEFEAT ANTIGO STARS

(By a Staff Correspondent)

With Buskey and Lawrence paving the way, the local bowling team defeated the Stars of Antigo in two series of three games each at the Antigo drives Sunday evening, the scores being 2588 and 2686.

Buskey was high lacking one pin for a double century average, while Lawrence was a close second with an average of 191. Korbenat and Juday followed with averages of 179 and 172 respectively, while Laugesen although considered one of the best pin topplers in the northwest had to be satisfied with an average count of 168 due to a combination of ill health and hard luck.

Buskey's bowling was the feature of the evening, a 6-7 split in the ninth frame of his third game preventing him from rolling a perfect score, his count being 253.

The four drives recently installed by Hoffman at Antigo are the finest in the Northwest and are as perfect as any tournament alleys anywhere. The treatment accorded the local team was the very best, the down state boys outdoing themselves in this respect.

A return match will be bowled on the local alleys in three weeks.

Never mind other sales that you have been attending and you were met with great disappointment; this sale is different altogether than any sale you have ever attended here in town. Jos. Wiesman, successor to Jacobson Dry Goods Co.
